

POSITION TITLE: NUCLEAR SAFETY ENGINEER

DUTIES:

Support the SRNS Nuclear Safety Engineer (NSE) organization in the development of nuclear safety documentation for various facilities at the Savannah River Site. Provide technical assistance in developing nuclear safety documents and analyses, technical safety requirements, and related technical support documentation. Ensure that the developed nuclear safety documentation complies with requirements and as necessary, applicable controls are implemented in field procedures. Demonstrate personal accountability for project schedules, deadlines, budgets, and the safe performance of work.

REQUIRED QUALIFICATIONS:

Education:

Bachelor of Science (BS) Degree in Engineering, Math, or Science. Alternate combinations of education and experience will be considered.

Experience/Skills:

Candidate must demonstrate a minimum of five (5) years experience in the nuclear safety industry through support to the Department of Energy (DOE) or the commercial nuclear industry. Previous experience with implementation of 10 CFR 830, DOE O 413.3A, DOE O 420.1B and related standards and guides is required.

Work Hours:

The specific work schedule will be defined based on the specific work assignment.

Area Security Access:

A security clearance is not initially required; however, candidate must be capable of obtaining an L or Q clearance if required to perform assigned duties.
